# ASHWANI DUBEY

## Frontend Developer

📞 8887802756　　@ ashwani786dubey@gmail.com　　🔗 https://www.linkedin.com/in/ashwani-dubey-5a8490196/

## EXPERIENCE

### Frontend Developer

**Solvative**

📅 03/2024 - Present　📍 Gujrat, India

- Enhanced user interfaces across **5+ key** client projects using **React, Vue.js, Node.js, and AEM,** boosting application performance and user engagement metrics.
- Created **responsive, adaptive frontend designs** implementing complex features, leading to faster load speeds and a 20% increase in usability across devices.
- Implemented PDF export functionality, reducing file sizes by 80%, accelerating generation time by more than half, while ensuring visual quality.

### Delivery Engineer

**Smarsh**

📅 12/2021 - 09/2023　📍 Bengaluru, India

- Created **Datadog monitors, SLOs, SLAs, and dashboards** using Terraform, and developed custom JavaScript for advanced monitoring, cutting manual monitoring efforts by **90%**.
- Implemented **CI/CD pipelines** with Concourse, achieving a **95% build success rate** and increasing deployment frequency from weekly to daily.
- Automated routine tasks within Concourse jobs using Shell and Python scripts, enhancing build efficiency and **minimizing manual intervention by 90%**.
- Write **15+ reusable React components** for Smarsh's collaboration platform, boosting **UI consistency** and decreasing development time by 30% across teams.

### Tech Intern

**BYJU'S**

📅 07/2021 - 11/2021　📍 Bengaluru, India

- Upgraded BYJU'S chatbot by adding **over 4 key features**, including call support, course detail display, and data storage integration, **enhancing user interaction**.
- Integrated **Google Geolocation API** to fetch user location and enable language-based personalization, resulting in a **25% increase in user engagement** through preferred regional language support.

## EDUCATION

### Bachelor of Technology in Computer Science

**University Institute of Education and Technology**

📅 07/2017 - 07/2021　📍 Kanpur, India

### Senior Secondary

**Oxford Public School**

📅 06/2014 - 04/2016　📍 Gorakhpur, India

## SUMMARY

Frontend developer with **3.5 years** of experience specializing in **React.js and Vue.js**. Skilled at debugging complex UI issues, optimizing performance, and delivering responsive, user-friendly interfaces. Experienced in modern web technologies including **Node.js, AEM, HTML, CSS, and JavaScript**.Enhancing application speed and boosting user engagement through efficient coding and innovative solutions.

## SKILLS

| React | HTML | CSS | JavaScript |
| --- | --- | --- | --- |

TypeScript　C/C++　Java

Python　Leetcode 200+　Redux

Data Structure and Algorithms

Next.js　Node　Express

REST API　Vue　AEM　Git

CI/CD　MongoDB　Unit testing

Bootstrap　pdfmake　html2pdf

## PROJECTS

### Student-Performance-Analysis

📅 07/2020 - 12/2020　📍 Kanpur, India

- Developed a quiz website for college students that analyzes test performance to estimate placement chances and provide personalized guidance, helping **over 50 students improve their placement readiness**.
- **Tech Stack:** Django, HTML, CSS, JavaScript, Bootstrap, Machine Learning.
- Collaborated in a team of 3, with primary responsibility for backend development , including user management, score analytics, and integration with the ML-based placement prediction model.
